

Memo No. TDM002-2024

To: Shipowners, ISM Operators and Deputy Registrars

Subject: GSI Program Reinstated for Belize Flagged Vessels

Date: 1 July 2024

Purpose:

The International Merchant Marine Registry of Belize has remained committed to comply with international standards and regulations for a better maritime industry. For this reason, IMMARBE has made all efforts to eliminate substandard ships and has focused on improving the quality of its fleet.

With this objective, we hereby inform you that effective March 1st, 2024, IMMARBE has collaborated with Isthmus Marine Documentation (IMD), whom will be conducting general safety inspections on our behalf of the registry for all Belize flagged vessels. IMD has been authorized to arrange and conduct all formalities for inspections of our fleet.

Shipowners, ISM Operators and Deputy Registrars are advised to ensure that all our Belize flagged ships are fully prepared by ensuring all documentation is updated and in order. In the event the operator chooses to take proactive action they can contact Tulia Morgan at gsi.immarbe@imd.com.pa to arrange the inspection. The purpose of the inspection is to minimize the number of deficiencies and avoid detentions incurred by our vessels when being inspected by Port State Control.

We anticipate your full cooperation and assistance in this regard and look forward to receiving confirmation of this memo.

Eng. Eduardo Simon
Technical Manager
International Merchant Marine Registry of Belize
